

Intuitive and the Environment

There are many different ways a business can become sustainable: reducing waste, preventing pollution, adopting clean energy, conserving water, greening the planet by planting trees, using sustainable materials, making our products sustainable and by adopting sustainable business travel policies.

Here are some of the ways that Intuitive Business Intelligence is working to become more sustainable and reduce its impact on the environment.

Our Commitment

- Minimise waste, reuse and recycle.
- Minimise energy and water use.
- Purchase products and services that do the least damage to the environment.
- Train, educate and inform our employees.
- Encourage employees to work in an environmentally responsible manner.
- Encourage the adoption of these principals by our suppliers.

Printing and the Environment

Our print management dashboards allow users to visualise the environmental impact of printing:

- Show summary of environmental impact of printing.
- Analyse by CO2 produced, energy usage and trees consumed.
- Analyse breakdown by department and month.
- Demonstrate the impact of printing habits.
- Assess the impact of implementing rules in your print management software.
